

We Learn. We Build. We Play.

Come Build with Us.

Bloomington Parks & Rec

After School

Thursdays 4:00pm - 6:15pm

Session I October 3rd - November 21st

Time 4:00pm - 5:00pm

ENERGY IS EVERYWHERE - Motorized Build K-3

Explore sports ranging from gymnastics to biking, mini-golf to airplane acrobatics! This unit is a great way to get "sporty" kids building and get LEGO® fans interested in sports. Some lessons focus on the importance of physical fitness and different aspects of fitness, such as stamina and strength. Other lessons describe the mechanics of the sport, such as the physics involved in golf and the components of a stationary bike. But the best part for the students is the way the models move and the fun they have playing with them after they're built - hitting a plastic golf ball with the mini-golf model, watching the gymnast spin around the bar and seeing the tiny airplanes spin around and around on the air show model. Maybe they'll be inspired to try a new sport, or build a model of their favorite sport!

Session I October 3rd - November 21st

Time 5:15 pm - 6:15 pm

Junior Robotics - 3-5 grade

How would you like to turn your next LEGO creation into a robot programmed to do exactly what you tell it to do? The Bricks 4 Kidz Junior Robotics camp offers all the fun of building with LEGO Bricks, plus the challenge of computer programming! Using drag-and-drop, icon-based software, the WeDo software introduces the world of computer programming and robotics that will equip children to succeed in a technology-based marketplace. This fun, action-packed week combines real-life skills with real kid fun.

6 - Weeks Cost: \$90

No Class 10/24 and 10/31
